Dear Section 106 Consulting Partners:

Attached are links for accessing the recording made yesterday during the Merced River Hydrological Study project briefing given by Dr. Derek Booth, the principal investigator with the University of California at Santa Barbara. The session was followed by Q&A from the audience (a total of four parties either attended or joined by webinar) with responses by park staff.

**The direct link to the webex recording is:**

To view the recording, click on the Meeting Notices link on the left hand side of the screen. Then click on the webex link provided to view the recording.

Please call if you have any problems accessing the recording. We are looking forward to discussing the project with you all next Monday. More information on that will be forthcoming shortly.

Regards

kk
